**April 22, 2019**

**Happy Earth Day! Earth Week Opportunity!**

### **Happy Earth Week!**

Once again we are honoured that Chocolatier Constance Popp has decided to donate to Save Our Seine through sales of her chocolates!

She will be creating Earth Day chocolates all of this week with the proceeds going toward Save Our Seine!

Please support this great St. Boniface business and at the same time support Save Our Seine!

Please Visit and Get Your Chocolate!

## Funding Announcement for SOS

Manitoba Habitat Heritage Corporation has selected the first round of projects approved under the Manitoba government's \$102-million Conservation Trust, Premier Brian Pallister and Sustainable

Development Minister Rochelle Squires announced on April 15, 2019.

"The Conservation Trust is an innovative, forward-thinking approach to invest in local projects that will conserve and enhance natural infrastructure and support the implementation of our best-in-Canada climate and green plan," Pallister said. "With this long-lasting partnership, we are building a legacy of work that will benefit all Manitobans. Today's announcement is the first instalment of many years of projects that will ensure Manitoba remains Canada's cleanest, greenest, most climate-resilient province."

The first round of initiatives includes 41 projects, with funding totalling over \$2.2 million across four distinct program areas: watersheds, habitat and wildlife, connecting people to nature, and innovation and conservation planning. Funding is based on a two-to-one matching formula, with the first group of projects receiving support ranging from \$4,000 to \$125,000.

**Save our Seine River Environment Inc. was awarded \$100,000 for the Seine River Enhancement project.**

We were very pleased to attend the announcement on April 15 and to receive our first cheque presentation by the Honourable Minister Rochelle Squires at our AGM on April 16.

For more information on the Conservation Trust please see the link the below.
